

# MISCELATORE INCASSO DOCCIA TERMOSTATICO - CONCEALED THERMOSTATIC VALVE

1

XX955

XX950

XX950 R2

XX950 R3

\*Nel caso sia necessario avere le connessioni del miscelatore filettate da G1/2" - NPT1/2" utilizzare le riduzioni fornite.

**SIGILLARE CON TEFLON TUTTE LE CONNESSIONI ALL'IMPIANTO IDRICO.**

\*In case you need the thermostatic connection G1/2" - NPT1/2" threads use the reductions provided.

**SEALING WITH TEFLON TAPE ALL THE CONNECTION TO WATER SUPPLY.**

Effettuare i collegamenti come indicato!

Far scorrere a lungo l'acqua nelle tubature prima di installare il miscelatore affinché i corpi estranei non ostruiscano i filtri della cartuccia termostatica. Nel caso in cui non fosse stata fatta la precedente operazione sarà necessario pulire la cartuccia come indicato nel modulo 4.

Make connections as shown!

Rinse pipeworks carefully for a long while before fitting the valve: do not allow dirt, metal particles, shavings to block filters fitted on cartridge. In that case you will be obliged to clean filters as illustrated at section 4.

\*\*Nel caso in cui si voglia usufruire dell'uscita opzionale: svitare il tappo esagono 26, con l'apposita chiave, e collegare un rubinetto che permetta la chiusura dell'acqua (ad es. 44062).

\*\*In case of you have need used optional outlet: unscrew the plug hexagonal 26 with specific wrench and connect a tap with stop (for ex. XX062).

\*\*\*uscita con maggior portata  
\*\*\* outlet with bigger flow rate

**! SIGILLARE CON TEFLON  
SEALING WITH TEFLON**

modulo 1/section 1:  
Installazione/Installation

2

Rispettare le quote di installazione come indicato!  
In caso si incassi troppo il miscelatore sono disponibili i kit per prolungare le parti grezze:

Observe the installation dimensions as shown!  
If the depth of wall installation is wrong are available extended kits for rough parts:

KIT 00338 prolunga/extension for 955  
KIT 00339 prolunga/extension for 950  
KIT 00340 prolunga/extension for 950R2-R3

per articoli/for items

XX950  
XX950 R3

! Durante il collegamento con il tubo all'uscita superiore tenere saldamente il miscelatore in modo da evitare il disallineamento tra le 2 parti grezze che compongono il prodotto  
During the connection to the pipes with upper outlet, keep firmly the mixer to avoid misalignment between the 2 rough parts of the product

3

Dopo aver completato l'installazione rimuove la vite ed estrarre il plaster

After finish install, remove screw and plaster

4

Verificare che i riferimenti della cartuccia siano coincidenti fra loro. Come riportato nella sezione informazioni importanti la taratura a 38°C è ottenuta con acqua fredda in entrata a 10°C-15°C e acqua calda a 60°C-65°C. Se le condizioni dell'impianto sono diverse verificare nel seguente modo: misurare la temperatura in uscita dal miscelatore con cartuccia posizionata come illustrato.

! Se la temperatura rilevata non corrisponde ruotare l'asta della cartuccia fino a trovare i 38°C. Nel caso si faccia la taratura dopo aver montato le parti esterne seguire il modulo 3.

Verify that the references of the cartridge are coincident as shown in picture. The calibration at 38°C (100°F) is obtained with inlet cold water at 10°C-15°C (50°F-60°F) and hot water at 60°C-65°C (140°F-150°F). If the conditions of the water supply are different: measure the temperature at the outlet with cartridge positioned as shown in picture. If the measured of temperature is different of 38°C (100°F) rotate the rod of cartridge until you find. If you do the calibration after mounting the external part follow section 3.

**modulo 5/section 5:**

**Manutenzione cartuccia/maintenance of cartridge**

**sostituzione o pulizia cartuccia/replacement or cleaning cartridge**

**1**

Eeguire i punti 1 del modulo 4.

5.1 Rimuovere la cartuccia (in caso di sostituzione chiedere il ricambio XB-01). Pulire i filtri della cartuccia con acqua corrente, immergerla per 8 ore circa in aceto e risciacquare con acqua. Pulire l'interno del corpo con un panno umido e ingrassare la cartuccia.

5.2 Inserire la cartuccia facendo attenzione a non danneggiare gli o-ring.

5.3 Aprire le valvole, controllare che non ci siano perdite. Verificare la temperatura in uscita dal miscelatore, se fosse necessario modificarla, seguire le istruzioni al modulo 1, punto 4.

Rimontare le parti esterne seguendo il punto 5 del modulo 1.

Following point 1 of section 4.

5.1: remove the cartridge (in case for substitution request spare part XB-01). Clean filters and rinse with water, then leave to soak in vinegar for 8 hours and rinse with water. Clean seat of cartridge with a wet cloth and greasing o-rings on cartridge.

5.2 Reassemble the cartridge, being careful to damage o-rings.

5.3 Open the valves, check there's not leaks.

Verify the outlet temperature, if necessary modify, following the point 4 of section 1 and mounting external parts, see point 5 of section 1.

**2**

**3**

modulo 6/section 6:

Manutenzione/general care

sostituzione vitone per regolazione portata e chiusura/replacement headwork for close and flow rate adjusting

1

Eeguire i punti 2 del modulo 4 (rimozione delle parti esterne).  
 6.1 Estrarre il vitone.  
 6.2 Inserire il nuovo vitone (in caso di sostituzione chiedere ricambio G90 3/4DX), fare attenzione agli o-ring, ingrassarli se necessario.  
 Riaprire le valvole punto 4 modulo 4.  
 Ripristinare le parti esterne, punto 5 modulo 1.

Following point 2 of section 4 (removing external parts),  
 6.1 remove headwork.  
 6.2 Insert new headwork (spare part G90 3/4DX) being careful to o-rings, ingreasing if necessary.  
 Opening valves (point 4, section 4).  
 Reassemble external part (point 5, section 1).

2

per articoli/for items  
 XX950

sostituzione cartuccia per deviazione/replacement cartridge for diverter

1

Eeguire i punti 3 del modulo 4 (rimozione delle parti esterne).  
 6.1 Estrarre il vitone (punto 3 modulo 3B a lato).  
 6.2 Inserire il nuovo vitone, (in caso di sostituzione chiedere ricambio per XX950 R2= R10917- per XX950 R3= R11086) facendo attenzione agli o-ring, ingrassarli se necessario.  
 Riaprire le valvole (punto 4 modulo 4).  
 Ripristinare le parti esterne, (punto 5 modulo 1).

Following point 3 of section 4 (removing external parts).  
 6.1 Remove headwork.  
 6.2 Insert new headwork (spare part for XX950 R2= R10917- for XX950 R3= R11086) being careful to o-rings, ingreasing if necessary.  
 Opening valves (point 4, section 3B).  
 Reassemble external part (point 5, section 1).

## Cura e garanzia del prodotto | Maintenance and warranty of the product | Entretien et garantie du produit | Pflege-und Produktgarantie | Cuidado y garantía del producto |

**IMPORTANTE: RICORDIAMO CHE LA GARANZIA NON COPRE I DANNI CAUSATI DAL DEPOSITO DI CALCARE O IMPURITÀ O SE L'APPARECCHIO RISULTERÀ AVER SUBITO TRATTAMENTI DIVERSI DA QUELLI DA NOI QUI SUGGERITI.**

Per evitare danni al vostro bagno o all'apparecchiatura acquistata vi invitiamo ad osservare le seguenti raccomandazioni di utilizzo:

- Spurgare l'impianto prima di collegare l'apparecchio.
- Pulire periodicamente la fessura di erogazione acqua da eventuali depositi di calcare che potrebbero compromettere il corretto funzionamento.

**Consiglio:** L'installazione di un impianto di filtraggio e addolcitura delle acque migliora e prolunga la vita dei nostri apparecchi e dell'impianto stesso.

### **PULIZIA PARTI METALLICHE:**

Per la semplice pulizia delle parti metalliche del prodotto è sufficiente usare un panno morbido e inumidito con acqua e sapone o un prodotto anticalcare. Per evitare la formazione di macchie, dovute alla presenza di calcio nell'acqua, si consiglia di asciugare con un panno dopo ogni uso.

**Consiglio:** Si prega di usare solo detersivi naturali a base di sapone evitando quelli contenenti alcool, acido cloridrico o acido fosforico, candeggina, cloro, ecc., e quelli contenenti polveri abrasive.

L'apparecchio è garantito **2 anni** contro difetti o vizi di fabbricazione.

### **La garanzia non copre danni causati da:**

- Installazione e/o utilizzo diversi da quelli suggeriti dal manuale d'uso e manutenzione.
- Errata predisposizione e realizzazione dell'impianto idrico.
- La normale e fisiologica usura per utilizzo corretto.
- Danni causati da deposito di calcare o impurità.
- Impiego di materiali di pulizia diversi da quelli qui indicati.

**IMPORTANT: PRIER DE NOTER QUE LA GARANTIE NE COUVRE PAS LES DOMMAGES CAUSÉS EN SUITE AU DÉPÔT DE CALCAIRE OU D'IMPURETÉS OU SI L'APPAREIL A EU DES TRAITEMENTS DIFFÉRENTS À CEUX QUE NOUS VOUS PROPOSONS CI-DESSOUS.**

Afin d'éviter des dégâts dans la salles de bain ou à l'appareil acheté, nous vous invitons à suivre le mode d'emploi suivant:

- Purger l'installation hydraulique avant de connecter l'appareil.
- Nettoyer périodiquement la fente de la lame des éventuels dépôts de calcaires qui pourraient compromettre leur correct fonctionnement.

**Conseil:** L'installation d'une station de filtrage et d'adoucisseur d'eau améliore et allonge la durée de la vie de nos appareils et même de l'installation.

### **NETTOYAGE COMPOSANTS MÉTALLIQUES :**

Il faut nettoyer les parties métalliques avec un chiffon souple et trempé avec du savon et de l'eau ou bien avec un produit anticalcaire. Afin d'éviter la formation des taches, déterminées par la présence de calcium dans l'eau, il faut essuyer et polir avec un chiffon souple après chaque usage.

**Conseil:** Prier de n'employer que des détergents simples, à base d'ingrédients naturels (savons) en évitant tous les produits qui contiennent de l'alcool, de l'acide chlorhydrique ou de l'acide phosphorique, de l'eau de Javel, chlore, etc., et ceux contenant de la poudre abrasive.

L'appareil est garantie par deux ans en cas de défauts et vice de fabrication.

### **La garantie ne couvre pas des dommages causés ensuite à:**

- L'installation et/ou l'emploi divers de ceux qui sont écrits dans le mode d'emploi et l'entretien.
- L'erronée prédisposition et mise en place de l'installation hydraulique.
- La normale et physiologique usure à la suite du correct emploi.
- Les dommages causés par le dépôt de calcaire ou bien des impuretés.
- L'emploi des matériaux de nettoyage différents à ceux-ci recensés

**IMPORTANTE: RECUERDE QUE LA GARANTÍA NO CUBRE DAÑOS CAUSADOS POR LA ACUMULACIÓN DE CAL O IMPUREZAS O SI EL APARATO SE HA SOMETIDO A UN TRATAMIENTO DISTINTO DE LOS SUGERIDOS POR NOSOTROS EN ESTE MANUAL.**

Para evitar daños en su cuarto de baño o de los equipos adquiridos, tenga en cuenta las siguientes recomendaciones para su uso:

- Haga correr el agua de la instalación antes de conectar el aparato.
- Limpie periódicamente la ranura de la cascada para liberarla de los depósitos de caliza pueden evitar el correcto funcionamiento.

**Consejo:** La instalación de una planta de filtros y descalcificador mejora y prolonga la vida de nuestros aparatos y de la planta también.

### **LIMPIEZA DE LAS PIEZAS METÁLICAS:**

Para la limpieza de piezas metálicas es suficiente utilizar un paño suave humedecido con agua y jabón o un producto antical. Para evitar manchas, debido a

**IMPORTANT: WE REMIND YOU THAT THE WARRANTY DOES NOT COVER DAMAGES CAUSED BY DEPOSITS OF LIMESTONE OR IMPURITIES OR IF THE DEVICE HAS UNDERGONE DIFFERENT TREATMENTS FROM THOSE SUGGESTED HERE.**

To avoid damages to your bathroom or to the purchased equipment, please observe the following recommendations for use:

- Clean the plumbing before connecting the device.
- Periodically clean the water blade to avoid any limestone deposits that could compromise the good functioning.

**Advice:** The installation of a filter and water-softener system improves and extends the life of the devices and of the plant itself.

### **CLEANING OF METAL PARTS:**

For an easy cleaning of the metal parts of the product, simply use a soft cloth moistened in water and soap or an anti-limestone detergent. To avoid spots caused by calcium in water, we advise drying with a cloth after each use.

**Advice:** Please use only natural soap-based detergents avoiding those with alcohol, hydrochloric acid or phosphoric acid, bleach, chlorine etc. and those containing abrasive powders.

The device is covered by **2 years** warranty against manufacturing defects.

### **The warranty does not cover damages caused by:**

- Different installation and/or use from those suggested by the operating and maintenance manual.
- Incorrect preparation and implementation of the waterworks.
- The regular and physiological wear and tear for correct use.
- Damages caused by limestone deposits or impurities.

**WICHTIG: BEDENKEN SIE, DASS DIE GARANTIE DECKT KEINE SCHÄDEN, DIE DURCH DIE KALKABLAGERUNG ODER VERUNREINIGUNGEN VERURSACHT SIND ODER WENN DAS GERÄT MEHRERE BEHANDLUNGEN UNTERZOGEN HAT, DIE ANDERS ALS WIR SCHLUGEN SIND.**

Um Schäden an Ihrem Badezimmer oder gekauften Geräte zu vermeiden, beachten Sie bitte folgende Empfehlungen für die Verwendung:

- Putzen Sie der Anlage vor dem Anschluss des Gerätes.
- Regelmäßige Reinigung der Fallkante von eventuellen Kalkablagerungen, die den Betrieb stören können.

**Tipp:** Die Installierung von einer Filteranlage und einem Wasserenthärter verbessert und verlängert die Lebensdauer unserer Geräte und der Pflanze selbst.

### **REINIGUNG VON METALLTEILEN:**

Zur einfachen Reinigung von Metallteilen ist ausreichend, um einen weichen Tuch mit Wasser und Seife oder einen Produkt gegen Kalk zu benutzen. Um die Färbung aufgrund der Anwesenheit von Kalk im Wasser zu vermeiden, sollten Sie mit einem Tuch nach jedem Gebrauch reinigen.

**Tipp:** Verwenden Sie bitte nur natürliche Seife-basierte Waschmittel und vermeiden solche mit Alkohol, Salzsäure oder Phosphorsäure, Bleichmittel, Chlor usw. und diese mit Scheuerpulver.

Das Gerät verfügt über eine **2-jährige** Garantie auf Herstellungsfehler.

### **Die Garantie deckt keine Schäden verursacht durch:**

- Installation und / oder Benutzung die unterscheiden sich von denen von der Bedienungs- und Wartungsanleitung vorgeschlagen.
- Falsche Vorbereitung und Durchführung von Wasser-System.
- Normaler physiologischer Verschleiß für die ordnungsgemäße Verwendung.
- Schäden, die durch die Kalkablagerung oder Verunreinigungen verursacht sind.
- Einsatz von Reinigungsmitteln andere als die hier aufgeführten.

la presencia de cal en el agua, se recomienda limpiar con un paño después de cada uso.

**Consejo:** Utilice únicamente detergentes naturales a base de jabón detergente y evite los que contienen alcohol, ácido clorhídrico o ácido fosfórico, lejía, cloro, etc, así como productos abrasivos.

El producto tiene una garantía de **2 años** contra defectos de fabricación.

### **La garantía no cubre daños causados por:**

- La instalación y / o el uso diferente de lo sugerido por el manual de empleo y mantenimiento.
- La disposición y la realización incorrecta del circuito hidráulico.
- El desgaste natural con un uso correcto.
- Los daños causados por la acumulación de cal o impurezas.
- El uso de materiales de limpieza que no sean las sugeridas en este manual.

# Cura e garanzia del prodotto | Maintenance and warranty of the product | Entretien et garantie du produit | Pflege- und Produktgarantie | Cuidado y garantía del producto |

**IMPORTANTE: RICORDIAMO CHE LA GARANZIA NON COPRE I DANNI CAUSATI DAL DEPOSITO DI CALCARE O IMPURITÀ O SE L'APPARECCHIO RISULTERÀ AVER SUBITO TRATTAMENTI DIVERSI DA QUELLI DA NOI QUI SUGGERITI.**

Per evitare danni al vostro bagno o all'apparecchiatura acquistata vi invitiamo ad osservare le seguenti raccomandazioni di utilizzo:

- Spurgare l'impianto prima di collegare l'apparecchio.
- Pulire periodicamente la fessura di erogazione acqua da eventuali depositi di calcare che potrebbero compromettere il corretto funzionamento.

**Consiglio:** L'installazione di un impianto di filtraggio e addolcitore delle acque migliora e prolunga la vita dei nostri apparecchi e dell'impianto stesso.

## PULIZIA PARTI METALLICHE:

Per la semplice pulizia delle parti metalliche del prodotto è sufficiente usare un panno morbido e inumidito con acqua e sapone o un prodotto anticalcare. Per evitare la formazione di macchie, dovute alla presenza di calcio nell'acqua, si consiglia di asciugare con un panno dopo ogni uso.

**Consiglio:** Si prega di usare solo detersivi naturali a base di sapone evitando quelli contenenti alcool, acido cloridrico o acido fosforico, candeggina, cloro, ecc., e quelli contenenti polveri abrasive.

L'apparecchio è garantito **2 anni** contro difetti o vizi di fabbricazione.

## La garanzia non copre danni causati da:

- Installazione e/o utilizzo diversi da quelli suggeriti dal manuale d'uso e manutenzione.
- Errata predisposizione e realizzazione dell'impianto idrico.
- La normale e fisiologica usura per utilizzo corretto.
- Danni causati da deposito di calcare o impurità.
- Impiego di materiali di pulizia diversi da quelli qui indicati.

**IMPORTANT: PRIER DE NOTER QUE LA GARANTIE NE COUVRE PAS LES DOMMAGES CAUSÉS EN SUITE AU DÉPÔT DE CALCAIRE OU D'IMPURETÉS OU SI L'APPAREIL A EU DES TRAITEMENTS DIFFÉRENTS À CEUX QUE NOUS VOUS PROPOSONS CI-DESSOUS.**

Afin d'éviter des dégâts dans les salles de bain ou à l'appareil acheté, nous vous invitons à suivre le mode d'emploi suivant:

- Purger l'installation hydraulique avant de connecter l'appareil.
- Nettoyer périodiquement la fente de la lame des éventuels dépôts de calcaires qui pourraient compromettre leur correct fonctionnement.

**Conseil:** L'installation d'une station de filtrage et d'adoucisseur d'eau améliore et prolonge la vie de nos appareils et même de l'installation.

## NETTOYAGE COMPOSANTS MÉTALLIQUES :

Il faut nettoyer les parties métalliques avec un chiffon souple et trempé avec du savon et de l'eau ou bien avec un produit anticalcare. Afin d'éviter la formation des taches, déterminées par la présence de calcium dans l'eau, il faut essuyer et polir avec un chiffon souple après chaque usage.

**Conseil:** Prier de n'employer que des détergents simples, à base d'ingrédients naturels (savons) en évitant tous les produits qui contiennent de l'alcool, de l'acide chlorhydrique ou de l'acide phosphorique, de l'eau de Javel, chlore, etc., et ceux contenant de la poudre abrasive.

L'appareil est garanti par deux ans en cas de défauts et vice de fabrication.

## La garantie ne couvre pas des dommages causés ensuite à:

- L'installation et/ou l'emploi divers de ceux qui sont écrits dans le mode d'emploi et l'entretien.
- L'erronée prédisposition et mise en place de l'installation hydraulique.
- La normale et physiologique usure à la suite du correct emploi.
- Les dommages causés par le dépôt de calcaire ou bien des impuretés.
- L'emploi des matériaux de nettoyage différents à ceux-ci recensés

**IMPORTANTE: RECUERDE QUE LA GARANTÍA NO CUBRE DAÑOS CAUSADOS POR LA ACUMULACIÓN DE CAL O IMPUREZAS O SI EL APARATO SE HA SOMETIDO A UN TRATAMIENTO DISTINTO DE LOS SUGERIDOS POR NOSOTROS EN ESTE MANUAL.**

Para evitar daños en su cuarto de baño o de los equipos adquiridos, tenga en cuenta las siguientes recomendaciones para su uso:

- Haga correr el agua de la instalación antes de conectar el aparato.
- Limpie periódicamente la ranura de la cascada para liberarla de los depósitos de caliza pueden evitar el correcto funcionamiento.

**Consejo:** La instalación de una planta de filtros y descalcificador mejora y prolonga la vida de nuestros aparatos y de la planta también.

## LIMPIEZA DE LAS PIEZAS METÁLICAS:

Para la limpieza de piezas metálicas es suficiente utilizar un paño suave humedecido

**IMPORTANT: WE REMIND YOU THAT THE WARRANTY DOES NOT COVER DAMAGES CAUSED BY DEPOSITS OF LIMESTONE OR IMPURITIES OR IF THE DEVICE HAS UNDERGONE DIFFERENT TREATMENTS FROM THOSE SUGGESTED HERE.**

To avoid damages to your bathroom or to the purchased equipment, please observe the following recommendations for use:

- Clean the plumbing before connecting the device.
- Periodically clean the water blade to avoid any limestone deposits that could compromise the good functioning.

**Advice:** The installation of a filter and water-softener system improves and extends the life of the devices and of the plant itself.

## CLEANING OF METAL PARTS:

For an easy cleaning of the metal parts of the product, simply use a soft cloth moistened in water and soap or an anti-limestone detergent. To avoid spots caused by calcium in water, we advise drying with a cloth after each use.

**Advice:** Please use only natural soap-based detergents avoiding those with alcohol, hydrochloric acid or phosphoric acid, bleach, chlorine etc. and those containing abrasive powders.

The device is covered by **2 years** warranty against manufacturing defects.

## The warranty does not cover damages caused by:

- Different installation and/or use from those suggested by the operating and maintenance manual.
- Incorrect preparation and implementation of the waterworks.
- The regular and physiological wear and tear for correct use.
- Damages caused by limestone deposits or impurities.

**WICHTIG: BEDENKEN SIE, DASS DIE GARANTIE DECKT KEINE SCHÄDEN, DIE DURCH DIE KALKABLAGERUNG ODER VERUNREINIGUNGEN VERURSACHT SIND ODER WENN DAS GERÄT MEHRERE BEHANDLUNGEN UNTERZOGEN HAT, DIE ANDERS ALS WIR SCHLUGEN SIND.**

Um Schäden an Ihrem Badezimmer oder gekauften Geräte zu vermeiden, beachten Sie bitte folgende Empfehlungen für die Verwendung:

- Putzen Sie der Anlage vor dem Anschluss des Gerätes.
- Regelmäßige Reinigung der Fallkante von eventuellen Kalkablagerungen, die den Betrieb stören können.

**Tipp:** Die Installation von einer Filteranlage und einem Wasserenthärter verbessert und verlängert die Lebensdauer unserer Geräte und der Anlage selbst.

## REINIGUNG VON METALLTEILEN:

Zur einfachen Reinigung von Metallteilen ist ausreichend, um einen weichen Tuch mit Wasser und Seife oder einen Produkt gegen Kalk zu benutzen. Um die Färbung aufgrund der Anwesenheit von Kalk im Wasser zu vermeiden, sollten Sie mit einem Tuch nach jedem Gebrauch reinigen.

**Tipp:** Verwenden Sie bitte nur natürliche Seife-basierte Waschmittel und vermeiden solche mit Alkohol, Salzsäure oder Phosphorsäure, Bleichmittel, Chlor usw. und diese mit Scheuerpulver.

Das Gerät verfügt über eine **2-jährige** Garantie auf Herstellungsfehler.

## Die Garantie deckt keine Schäden verursacht durch:

- Installation und / oder Benutzung die unterscheiden sich von denen von der Bedienungs- und Wartungsanleitung vorgeschlagen.
- Falsche Vorbereitung und Durchführung von Wasser-System.
- Normaler physiologischer Verschleiß für die ordnungsgemäße Verwendung.
- Schäden, die durch die Kalkablagung oder Verunreinigungen verursacht sind.
- Einsatz von Reinigungsmitteln andere als die hier aufgeführten.

con agua y jabón o un producto antical. Para evitar manchas, debido a la presencia de cal en el agua, se recomienda limpiar con un paño después de cada uso.

**Consejo:** Utilice únicamente detergentes naturales a base de jabón detergente y evite los que contienen alcohol, ácido clorhídrico o ácido fosfórico, lejía, cloro, etc, así como productos abrasivos.

El producto tiene una garantía de **2 años** contra defectos de fabricación.

## La garantía no cubre daños causados por:

- La instalación y / o el uso diferente de lo sugerido por el manual de empleo y mantenimiento.
- La disposición y la realización incorrecta del circuito hidráulico.
- El desgaste natural con un uso correcto.
- Los daños causados por la acumulación de cal o impurezas.
- El uso de materiales de limpieza que no sean las sugeridas en este manual.
